Think pink

One is never too old to learn ;).

Our Classroom offers a small auditorium for 32 people; the starting point for this meeting room. If you are with fewer people, the chairs can be folded down as a table, which can be desirable for seminars or a workshop, for example. But you are also at your best in The Classroom for a reception, film presentation or training. The hip, inspiring environment does the rest!

Nice details, such as old school posters, are a nod to what The Classroom is: an inspiring space where everyone can learn something. The Classroom surprises you from start to finish.

This unique space has its own hallway with entrance from the central lounge and therefore offers a quiet location. Easy to set up as a studio and therefore ideally suited for live streams etc. We share the expertise for this with BeeldR from Leiden, professionals in image and sound.

The more that you learn, the more places you'll go

Let's dive in! (No cannonballs ;)

Tired on meetings? Not at our newest creative hotspot *The Pool*. You'll feel like a fish in water in this renovated space, where you used to have only access to in swimwear. Nowadays you can comfortably meet here, but also organize a pool party or have your wedding, drinks or brainstorm session. *Small Events*, we love it! You find yourself at a former indoor pool including life guard buoys and hook, beach chairs and the original tiles all around you. Now supplemented with modern furniture and comfortable chairs, the latest technology, a delicious coffee corner, lounge areas and healthy catering. Add some background music and nothing is holding you back to have your unique event!

Vintage environment

During long meeting days, our guests have a wonderful break-out spot on our terrace, depending on the season in a summer beach look or winter setting. Unfortunately, the Dutch weather sometimes throws a spanner in the works to enjoy being outside. With the arrival of our Greenhouse, that is a thing of the past! Now we can always give our meeting guests a wonderful outdoor feeling. Originally used in horticulture, this stylish greenhouse has now been given a second life in Leiden.

Always outside

Meeting guests can enjoy their lunch or drink here, but this Greenhouse is also an excellent choice as a break-out room or for an informal meeting. Or just relax on the couches, that's always possible. Lots of greenery, wooden elements, carpets and vintage furniture give a wonderful, relaxed atmosphere and the electric heaters ensure a pleasant temperature. Here you can enjoy the outdoors all year round with the comfort of the inside. A unique addition to our location!

Events

For cozy drinks and events you are more than welcome to book The Greenhouse with our terrace. In combination with the permanent bar on the terrace, we can organize the best events in consultation with you. Contact us and we will be happy to make you a tailor-made proposal for you.

Who loves a garden loves a greenhouse too

The Bar

Cheers!

The Bar is the beating heart of our meeting location. A super nice hotspot, inspired by the industrial style with a hotel-chic look. Here you can book a cozy afternoon break after your meeting. A nice, atmospheric space to end your day with a traditional drink and snack, non-alcoholic drinks with trendy mocktails and extensive snack platters. Only available by reservation in advance.

In December, The Bar is wrapped in atmospheric party decorations and is ideal for a Christmas drink with colleagues, a New Year's reception or other happening.

Directly adjacent to The Bar you walk into the spacious lounge with access to the other meeting rooms and hotspots
